Narrative

On Monday, June 22, 2026, I, Detective D. Key #1317, was notified by Haltom City Police Department (HCPD) Sergeant H. Hudson #1295 that I would be investigating a Tarrant County In Custody Death. This was going to be in reference to Mack Greer dying while in the custody of the Tarrant County Sheriff's Office (TCSO). Sergeant Hudson told me to expect a phone call from a TCSO Detective Ramsey tomorrow (Tuesday 06/23/2026) for additional information.

On Tuesday, June 23, 2026, at 1430 hours I spoke with Detective Ramsey and learned the following information. The deceased's full identity is Mack Lee Greer B/M 04/02/1980. Mack had been arrested by White Settlement Police Department for a Fort Worth Police Department warrant and brought to the TCSO correctional facility on 05/28/2026. He was booked into TCSO correctional facility on 05/28/2026. He was released from custody on 06/17/2026. On 06/16/2026, Mack had a medical emergency and was transported to the John Peter Smith hospital. He was released due to a doctor assigned within the TCSO correctional facility presenting a compassionate letter request to the courts for release.

Detective Ramsey went on to explain that Mack was pronounced brain dead on 06/18/2026, but TCSO did not receive an actual notification of death until 06/20/2026. She was unsure what medical emergency Mack had experienced on 06/16/2026 at the time the supplement was started. She had been told it could either be a brain bleed or a brain aneurism. Detective Ramsey was going to work on getting clarification on the matter. On 06/13/2026, Mack had been seen banging his head inside of a jail cell. He was checked into the MHMR facility within the TCSO correctional facility and was eventually checked out, before ultimately being medically released. During his stay within the facility, he was moved to multiple cells during his stay within the correctional facility. Detective Ramsey was unsure if an autopsy was going to be conducted on Mack's body. Currently TCSO jail compliance was preparing an investigative packet on the in custody death. Once the packet was completed it would be provided to the HCPD CID. The conversation with Detective Ramsey lasted approximately 20 minutes.

At the conclusion of the phone conversation with Detective Ramsey, I met with Sergeant Hudson and relayed the provided information. While present with Sergeant Hudson, she contacted the Tarrant County Medical Examiner's office in an attempt to determine if an autopsy was going to be conducted. During that phone call she learned that the death investigator was Kyle Finney. Mack's body had been at TCME and an autopsy had already been conducted on 06/22/2026. They were still waiting on toxicology results. It was explained how the best blood samples taken for toxicology would have been collected at the JPS hospital at the ER, but that those are discarded after 2-3 days. Mack was an organ doner and Life Gift performed the organ harvesting. It was noted in the phone call that Life Gift would not harvest any organs if there was any damage. They also document any signs of injury to Mack's body. Photographs would have been collected during the harvest and sent to Doctor David Joseph (the assigned prosecutor).

While meeting with Sergeant Hudson, we were able to determine that White Settlement PD's case number was 26WS10874. Mack had been arrested by an Officer Bolanos #590. I will speak with Detective Ramsey about the collection of BWC and Fleet videos for White Settlement PD.

Supplemental Narrative

Name: D Key

Date: 10:08:01 06/29/26

06/29/2026

On Monday, June 29, 2026, I sent an e-mail to Detective Ramsey requesting that White Settlement PD's arrest report, body worn cameras, fleet cameras, and detention facility records be collected for this investigation.

On Monday, October 12, 2026, I began the investigation by reviewing the information collected by Detective Ramsey. While investigating this case, I learned that Mack was arrested by the White Settlement Police Department for an arrest warrant from the Fort Worth Police Department for Theft of Material on 05/27/2026 at approximately 2059 hours and subsequently booked into the TCSO jail where he remained until 06/16/2026. He had been assigned to a special purpose cell located in Housing Unit 55B, cell 20, and was the sole occupant.

On 06/16/2026 when Officer J. Lowry #72415 checked on duty for "Third Shift," more commonly referred to as the night shift, he was assigned to Tarrant County Correction Center Housing Unit 55A/B. At approximately 2320 hours, he went to 55B Cell #20 to provide Mack with a new blanket and mattress, with the intent to exchange the items he had previously been provided with. When Officer Lowry arrived at the cell, he observed that Mack appeared to be asleep with his chest rising and falling consistently. Mack did not respond to Officer Lowry's instructions, causing Officer Lowry to enter the cell and check on him. Upon receiving no response from Mack, Officer Lowry called a Code 6 Signal 1 (Inmate Emergency Medical). Mack was placed in a recovery position until medical personnel arrived to assess him. Sergeant D. Fry #76479 responded to the cell and determined further care was necessary, at which point Mack was placed on a medical gurney and was escorted to Level 5 Medical Resource. Mack was administered with two doses of Narcan, both failing to elicit a response. LVN H. Burris contacted Acadian ambulance service at 2333 hours for transportation. At 2359 hours Mack was transported to John Peter Smith Hospital for further medical assistance. Mack remained in the ICU at JPS until he was later pronounced deceased by Doctor Onawunmi on 06/18/2026 at 1442 hours.

The Tarrant County Medical Examiner's Death Investigation Report revealed the cause of death to be due to complications of moyamoya disease, and the manner of death to be Natural. "Moyamoya disease: cerebral parenchymal hemorrhages extending into ventricular system, subarachnoid hemorrhages, history of moyamoya disease with acute hemorrhagic stroke of the left basal ganglia with intraventricular hemorrhage diagnosed by imaging during terminal hospitalization, per medical records." I also noted that on June 12, 2026, Mack had another medical incident, during which time he was having trouble speaking, weakness when raising his arms, slurred speech, and facial drooping was observed.

I replayed the cell surveillance videos and noted that no other person other than a jailer entered Mack's cell. The videos corroborate the events described by TCSO personnel.

Mack was confined in a single cell and discovered alone. Based on the totality of the investigation, I have a reasonable belief that Mack's death was due to natural causes, moyamoya disease. There will be no criminal charges filed arising from this death, nor should there be any allegations of criminal wrongdoing. At this time, no further investigative action will be taken by Haltom City Police Department.

Supplemental Narrative

Name: H Hudson

Date: 12:15:06 09/16/26

Case #: 2609929

Name: Greer, Mack

County: Tarrant

Date of Birth: 04/02/1980
